I've set the waiver priority based on these rules: - Waiver Priority will be as follows (as per a vote prior to SC2): -- All players without a keeper (highest wavier priority goes to the team that spent the least on his/her most costly player) followed by -- All players with a keeper (highest priority goes to the team that spent the least on his/her most costly player) -- Ties broken based on value of second most expensive player (as per SC4 precedent)
